OVERVIEW OF

ON SERVICES' DIGITAL & INTERACTIVE TECHNOLOGY

For more than 25 years, ON Services, through its Data Display division, has specialized in digital solutions for Trade Show Organizers, Exhibitors and Live Event Planners. With one of the largest rental inventories of cutting-edge technology, we have both the equipment and the expertise to translate your vision into reality with:

- ✦ Interactive Transparent OLED
- ✦ Responsive Multitaction Displays
- ✦ Seamless Microtile Videowalls
- ✦ High-res LED Tiles
- ✦ In-house, On-site Support

We work side-by-side with you to find the right technology and execution for your vision. From concept, to set-up, to on-site support, we are there every step of the way to provide you with the exceptional product and service you deserve.

Contact us today to find out how we can help you showcase your brand and broadcast your message.

Interactive Transparent OLED

USE CASES

- ▶ Feature a product that can be revealed or concealed behind interactive content for a dramatic unveiling
- ▶ Introduce interactive content in your environment without obscuring the view

KEY FEATURES

- ▶ 55" monitor for table, ceiling or aligned mounting
- ▶ 100% of NTSC color gamut
- ▶ Wide-viewing angles with no off-axis contrast or brightness limitations
- ▶ 45% Transmissivity

PRODUCT HIGHLIGHTS

- ▶ Two different mounting configurations, table top or ceiling mount
- ▶ Alternate portrait and landscape modes
- ▶ May be tiled to create large, eye-catching video wall arrays
- ▶ Optional touch screen interactivity with 32-simultaneous multi-touch

Responsive Multitaction Displays

USE CASES

- ▶ Give your content new life by making it responsive to an individual's unique need or interest
- ▶ Immerse your audience in a 360° view of your products

KEY FEATURES

- ▶ Display Size 55" 16:9 Wide
- ▶ TFT LCD Ultra Thin Bezel panel
- ▶ Full HD 1920 x 1080
- ▶ 0.63mm Pixel Pitch
- ▶ Up to 200 fps tracking speed
- ▶ Integrated Backlit Emitter Camera (IBEC) modules

PRODUCT HIGHLIGHTS

- ▶ Simultaneous Multi-touch – Unlimited number of fingers, hands, objects with optical markers, basic shapes, infrared pen. Click, hold and drag
- ▶ Full Networking Capabilities – Allows for cloud applications and social network integration, as well as remote management and monitoring
- ▶ Stackable and Safe – Up to 24 “cells” can be connected to run a single multi-touch experience. The front glass of each “cell” is tempered, hardened and bonded for ultimate safety

Seamless Microtile Videowall

USE CASES

- › Bring your message to life through stunning visuals and imagery
- › Transform a video wall into an interactive, multi touch experience

KEY FEATURES

- › Lightweight and shallow at 20.3lbs (9.2kg) and a depth of 10" (260mm)
- › 16"W (408mm) x 12"H (306mm) screen size
- › Super-fine pixel pitch of 0.5mm
- › Full 115% of NTSC color gamut – exceeds standard LCD flat panel over 50%
- › Virtually seamless with a 1mm seam

PRODUCT HIGHLIGHTS

- › The simple locking mechanism of the tiles allows for ease of set-up, tear down, and ability to reconfigure into a variety of shapes. The tiles detect each other automatically when connected to display your image on screen instantaneously
- › Higher resolution than LED (3mm) walls and LCD/Plasma (0.7mm) screens
- › Transforms into a multi touch interactive with the addition of an Interactivity Kit

High-Res LED Tiles

USE CASES

- › Upgrade static digital signage with animation for an eye-catching experience
- › Increase impact and visibility outside or in brightly lit areas

KEY FEATURES

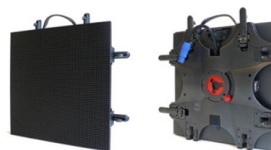

- › Lightweight
- › Silent, no cooling fans
- › Available in 25mm blowthrough to fine pitches sub-3mm

PRODUCT HIGHLIGHTS

- › Image remains sharp from a short distance ideal for content-sharing in an exhibit or event setting
- › Create anything from large video walls for brand awareness to content sharing on a smaller-scale
- › The simple locking mechanism of the tiles allows for ease of set-up, tear down and reconfiguration
